

**TO**  
Medipak Customers

**DATE**  
December 31, 2021

**SUBJECT**  
Streamlined customer interactions and price adjustments

***We care about you, our relationship, and our product***

While navigating the new economic landscape, we have been working tirelessly to deploy systems to make our customers' lives easier. You've likely already started to see our updated branding roll out leading with a new website, collateral material, marketing, and soon packaging.

For nearly a year, our team has been working to fully integrate a new accounting system, manufacturing system, e-commerce solution, and shipping software into a fully integrated and automated software stack. The new system will streamline online ordering, order tracking, order history, provide up-to-date and accurate stock levels, product data sheets, instructions for use, batch lookup for automated Certificate of Conformity documents, and electronic invoicing and payment options. We hope these improvements will help make a small part of your day easy and efficient.

***Every industry has seen COVID-related challenges***

This year has been one of change and challenge for all. You have undoubtedly seen challenges in the day-to-day operations that you probably have not seen before. As we navigate this new COVID world, the fragility of the relationship between the products we need, the manufacturers who make them, and the suppliers who provide those raw materials have never been more apparent. As manufacturers, we have felt these strains alongside you. Know that our relationship and the quality of our product are paramount in all that we do.

***We are adjusting SKU's, product lineup, and pricing***

Costs from raw materials to packaging to labor and more have seen drastic increases throughout the pandemic. While it is always our goal to provide the most competitive pricing in our industry, it has become necessary to make pricing adjustments for the first time in six years. We will implement SKU updates with the launch of our new e-commerce ordering platform in early January, and on April 1, 2022 updated pricing will take effect.

Visit [medipak.com/2022-updates](https://www.medipak.com/2022-updates) for more details and downloadable files to assist with pricing and SKU update.

Please reach out with any questions. We wish everyone a prosperous 2022 and as always, thank you for your continued business with Medipak.

Jason Cooke  
President
